MARC-ABRAHAM NDABIAN
Greenville, SC

OBJECTIVE

To utilize my skills in computer programming and coding, knowledge of circuit design, problem-solving, and project management skills in an engaging computer engineering internship.

EDUCATION

University of South Carolina, Columbia, SC   **August 2025 – Expected to graduate Dec. 2027**
Bachelor of Science in Computer Engineering

Greenville Technical College, Greenville, SC   **August 2023 – May 2025**
Associate of Science with Computer Engineering Technology Concentration   Cumulative GPA: 3.33

ACADEMIC HONORS & AWARDS

- SC Life Scholarship Recipient: Awarded to college students maintaining a minimum 3.0 GPA
- Greenville Technical College Student Leader: Emerging Leaders Conference 2024
- AAMSI Scholar & TriO Scholar: Professional Development Workshop Presenter

TECHNICAL SKILLS - LEVEL

AutoCAD Fusion – Proficient	Autodesk Inventor	Autodesk Revit -Intermediate
C-Programming I – Intermediate	Microsoft Suite – Master	Java Programming – Intermediate

SOFT SKILLS

Leadership | Communication | Time Management | Teamwork | Public Speaking | Adaptability

WORK EXPERIENCE

- **Fluor Corporation | Greenville, SC**   **May – August 2025**

Assisted the HVAC engineering group on the SRPPF project with CAD and modeling software configuration
Contributed to the creation and review of drawings & Piping and Instrumentation Diagram (P&IDs)
Collaborated with engineers and designers to ensure design accuracy and compliance with project standards

- **Architecture Tutor/Department Assistant | Greenville, SC**   **May 2024 – May 2025**

Provide supplemental instruction to students in X classes covering Algebra, Trigonometry, Calculus, AutoCAD, Revit

VOLUNTEER EXPERIENCE

- **Fluor Fusion Reactor Educational Machine**

Collaborated with engineers and interns to design and build a child-safe, interactive machine simulating nuclear fusion
Developed a user manual to support volunteer training, safe operations, and future intern handoff
Presented project outcomes to Fluor leadership and stakeholders to showcase STEM community impact

- **Fluor Toastmaster's Speechcraft**

Completed an 8-week course program focused on public speaking, active listening, and leadership development
